PROFILE

Hello! I am a passionate Web Developer with a proven track record of developing and maintaining high quality software solutions. Multi-skilled, hardworking and looking to enhance and expand my skills. Committed to improving myself and updating my knowledge in my field. Looking for new difficult situations and different experiences. Efficiently build user interfaces using front-end frameworks and libraries. I master responsive design, interact with the backend, and collaborate with the work team. I seek to improve my skills, learn new technologies, and contribute to creating innovative and sustainable web solutions.

WORK EXPERIENCE

FULL-STACK DEVELOPER - CODEPROPS FROM 2024 TO 2025

- Built and maintained full-stack web applications.
- Managed databases and optimized application performance.

FRONT-END DEVELOPER - SCRAMBLEBIT (2022 - 2024)

- Developed and designed modern, responsive user interfaces.
- Improved performance and user experience using the latest technologies.
- I trained at SCRAMBLEBIT and worked on various projects, including personal websites and online stores, and I created my own portfolio.
- I obtained a certificate at the end of the training.

INTERNSHIP AT KODLUYORUZ

- Participated in an educational course on website development using JavaScript and the React library with the Kodluyoruz organization.
- Developed and completed all the projects and exercises required in the course successfully and to a high degree.
- Earned a certification upon completion.

PROJECTS

SKYGALAXY.SHOP (FULL-STACK E-COMMERCE PLATFORM)

An e-commerce platform allowing customers to register, create personal accounts, and modify their information.
Features a shopping cart, wish list, and order tracking.
Includes an admin panel for adding products, categories, and viewing orders.
Generates invoices sent to customers via email, with unique delivery confirmation codes.
Fully responsive across all

OHAYADEKORA.COM

Landing pages for a construction company
Designed and developed a high-conversion landing page to showcase services effectively.

CODEPROPS.COM

Software company website

I created an introduction page for a burger restaurant that displays and introduces the existing products using html css

I created a book store that displays available books with the ability to add more than one product to the cart and
.delete products from it using html, css and javascript
